Hyderabad, TS, India | +91-9154048555 | rupaknalla1034@gmail.com | linkedin.com/in/rupaknalla

SUMMARY

Software Engineer with hands-on experience building user-friendly, responsive web applications using React and modern frontend technologies. Proficient in JavaScript (ES6+), HTML5, CSS3, and integrating with backend services via RESTful APIs. Demonstrated ability to collaborate with cross-functional teams including designers, product managers, and backend engineers to deliver high-quality solutions. Eager to contribute to innovative healthcare technology solutions that make life better for people.

EDUCATION

Indian Institute of Technology, Madras

B.Sc in Data Science and Applications

2022 – Present

Chennai, TN, India

JNTUH College of Engineering, Manthani

B.Tech in Computer Science and Engineering

2021 – 2025

Manthani, TS, India

CORE COMPETENCIES

- **Frontend Development:** React, Vue.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design
- **Backend & APIs:** Node.js, Express.js, Python, Flask, FastAPI, RESTful API Integration
- **State Management & Tools:** Redux, Context API, Webpack, Git, VS Code
- **Additional Skills:** Agile/SDLC, Performance Optimization, Accessibility, Code Reviews, CI/CD

TECHNICAL PROJECTS

Supply Chain Management System *React.js, Python, Flask, SQLite*

- Developed **user-friendly, responsive web interfaces** using React.js and React Hooks following modern frontend best practices and accessibility standards
- Collaborated with backend engineers to **integrate RESTful APIs**, delivering seamless features and enhanced user experience
- Built reusable frontend components with focus on maintainability, reducing development time by 25%
- Participated in code reviews and contributed to improving engineering practices across the team

Library Management System *Vue.js, Node.js, Flask, Redis, SQLite*

- Built responsive and accessible user interfaces for a full-stack library platform serving 100+ concurrent users
- Integrated with backend services via RESTful APIs to deliver high-quality, seamless user experiences
- Optimized frontend performance by 35% through efficient state management and caching strategies
- Worked closely with design and engineering teams following **Agile methodologies** and SDLC practices

Candidate Filtering System *Python, FastAPI, MongoDB, VoyageAI*

- Developed scalable backend services and APIs, demonstrating understanding of full software development lifecycle
- Enhanced system performance and maintainability through asynchronous programming, reducing latency by 40%
- Collaborated with cross-functional teams during rapid prototyping and iterative development cycles

ACHIEVEMENTS

- Secured 987th rank in TCS CodeVita Round 2; solved 200+ LeetCode problems with 50-Day Badge (2024, 2025)
- Technical Coordinator for AVINYA 2024 college fest, leading event organization and cross-functional teams
